

### **myneva Group, part of Summa Equity, acquires Kuidado GmbH and strengthens digitalization in social sector**

*Stockholm/Essen, July 18, 2025* – myneva Group, a leading European software provider in the social sector and part of the Summa Equity portfolio since 2021, today announces the acquisition of **Kuidado GmbH**, an innovative provider of AI-powered CRM software for patient admissions in the social sector named **CareMates**.

With this acquisition, myneva further accelerates its growth trajectory, marking its twelfth successful acquisition. The entire CareMates team, including its four founders (Sören Göhler, Dylan Gruner, Johannes Kiwi and Pablo Valencia), will become part of the myneva Group and continue to shape the development of the company's offering.

"This strategic technology acquisition is a significant step in myneva's mission to become the leading software provider for the social sector in Europe. The addition of CareMates perfectly aligns with our vision of digitizing and enhancing holistic care across Europe – a mission we at Summa fully support."  
— *Matthias Fink, Partner at Summa Equity*

The AI powered solution, **CareMates**, will be connected to the myneva care platform, enhancing onboarding processes in social institutions by reducing intake time by up to 80%. The solution, designed to allow care professionals to focus more on people than paperwork, will remain available as a standalone product and will also benefit from deeper integration into myneva's care ecosystem.

"myneva and CareMates are a perfect match – in customer focus, technological vision, and company culture. Our goal remains clear: to provide the most effective digital solutions for care providers of all sizes and to meaningfully improve daily workflows in the social care sector and save caregivers and social workers time."  
— *Dieter Weisshaar, CEO, myneva Group*

#### **Added value for CareMates customers**

Customers of CareMates will benefit from myneva's extensive expertise in digital transformation, data security, and artificial intelligence. The acquisition opens new paths for innovation and broader impact across a large number of European social institutions.

"The collaboration between myneva Group and CareMates brings exciting opportunities to scale our technology and improve care processes sustainably. We are proud of what our team has achieved and look forward to shaping the future of digital care on an international level."  
— *Sören Göhler, Co-Founder and Managing Director, Kuidado GmbH, now part of the myneva Group management team.*

As a pan-European leader in social care technology, myneva continues to transfer best-in-class innovations across regional markets. Through customer-centric collaboration and the integration of advanced digital solutions, the Group strengthens its mission to lead the digital transformation of social care in Europe.

"We founded CareMates to make everyday life noticeably easier for caregivers and social workers. Artificial intelligence helps us reduce time-consuming and bureaucratic tasks, leaving more time for human interaction. We share this mission with myneva—and are now continuing it together."

— *Dylan Gruner, Co-Founder and Managing Director, Kuidado GmbH, now part of the myneva Group management team.*

### **About the myneva Group**

The myneva Group is one of the leading European software providers in the social sector with a clear focus on digitalization and innovation. Headquartered in Essen and with over 400 employees at 18 locations, myneva serves a broad customer base of more than 6,300 institutions and 1,7 million clients in eight European countries. Driven by strong values such as trust, appreciation and responsibility, myneva covers all areas of social services - from elderly care and integration assistance to child and youth welfare and social assistance - and reflects its commitment to improving care and opening up new perspectives in social services through user-friendly software solutions and the close involvement of its stakeholders.
